Completed on	Monday, 1 September 2025, 9:11 PM
Time taken	7 hours 37 mins
Grade	5.00 out of 5.00 (100%)

Question 1

Correct

Mark 1.00 out of 1.00

Write a C program to check whether the input value is equal to 1 using simple if statement

For example:

Input	Result
1	TRUE

Answer: (penalty regime: 0 %)

```
1 #include<stdio.h>
2 int main()
3 {
4     int num;
5     scanf("%d",&num);
6     if (num==1)
7         printf("TRUE");
8 }
```

	Input	Expected	Got	
✓	1	TRUE	TRUE	✓
✓	0			✓

Passed all tests! ✓

Correct

Marks for this submission: 1.00/1.00.

Question **2**

Correct

Mark 1.00 out of 1.00

Write a C program to read N value and check that value is equal to 0 or not using **if-else**

For example:

Input	Result
0	Number is ZERO.
11	Number is NOT ZERO.

Answer: (penalty regime: 0 %)

```
1 #include<stdio.h>
2 int main()
3 {
4     int num;
5     scanf("%d",&num);
6     if (num==0)
7         printf("Number is ZERO.");
8     else
9         printf("Number is NOT ZERO.");
10    return 0;
11 }
```

	Input	Expected	Got	
✓	0	Number is ZERO.	Number is ZERO.	✓
✓	11	Number is NOT ZERO.	Number is NOT ZERO.	✓
✓	1	Number is NOT ZERO.	Number is NOT ZERO.	✓
✓	-1	Number is NOT ZERO.	Number is NOT ZERO.	✓

Passed all tests! ✓

Correct

Marks for this submission: 1.00/1.00.

Question **3**

Correct

Mark 1.00 out of 1.00

Write a C program to check whether the given number is even number and if it is even check whether the given number it is less than or equal to 10 or not using nested if.

For example:

Input	Result
15	The number is NOT an even number
10	The number is even The number is less than or equal to 10

Answer: (penalty regime: 0 %)

```

1  #include<stdio.h>
2  int main()
3  {
4      int num;
5      scanf("%d",&num);
6      if(num%2==0)
7          printf("The number is even \n");
8      if(num<=10)
9          printf("The number is less than or equal to 10\n");
10     else
11         printf("The number is NOT an even number");
12     return 0;
13 }
14

```

	Input	Expected	Got	
✓	15	The number is NOT an even number	The number is NOT an even number	✓
✓	10	The number is even The number is less than or equal to 10	The number is even The number is less than or equal to 10	✓
✓	8	The number is even The number is less than or equal to 10	The number is even The number is less than or equal to 10	✓

Passed all tests! ✓

Correct

Marks for this submission: 1.00/1.00.

Question 4

Correct

Mark 1.00 out of 1.00

Write a program in C to read any digit(20-25), display in the word.

For example:

Input	Result
24	Twenty Four.
9	invalid number.

Answer: (penalty regime: 0 %)

Reset answer

```
1 #include <stdio.h>
2
3 int main() {
4     int num;
5
6     // Input from user
7
8     scanf("%d", &num);
9
10    // Check and display in words
11    if (num == 20)
12        printf("Twenty.\n");
13    else if (num == 21)
14        printf("Twenty One.\n");
15    else if (num == 22)
16        printf("Twenty Two.\n");
17    else if (num == 23)
18        printf("Twenty Three.\n");
19    else if (num == 24)
20        printf("Twenty Four.\n");
21    else if (num == 25)
22        printf("Twenty Five.\n");
```

	Input	Expected	Got	
✓	24	Twenty Four.	Twenty Four.	✓
✓	9	invalid number.	invalid number.	✓
✓	21	Twenty One.	Twenty One.	✓

Passed all tests! ✓

Correct

Marks for this submission: 1.00/1.00.

Question **5**

Correct

Mark 1.00 out of 1.00

Write a C Program to print numbers(10 to 14) into words using the switch statement (EX. 10 -TEN, 13-THIRTEEN)

For example:

Input	Result
0	... Plz Enter 10 to 14 Numbers Only...
10	TEN

Answer: (penalty regime: 0 %)

```

1  #include <stdio.h>
2
3  int main() {
4      int num;
5
6
7      scanf("%d", &num);
8
9      switch (num) {
10         case 10: printf("TEN\n"); break;
11         case 11: printf("ELEVEN\n"); break;
12         case 12: printf("TWELVEN\n"); break;
13         case 13: printf("THIRTEEN\n"); break;
14         case 14: printf("FOURTEEN\n"); break;
15         case 15: printf("FIFTEEN\n"); break;
16         default: printf("... Plz Enter 10 to 14 Numbers Only...\n");
17     }
18
19     return 0;
20 }
```

	Input	Expected	Got	
✓	0	... Plz Enter 10 to 14 Numbers Only...	... Plz Enter 10 to 14 Numbers Only...	✓
✓	10	TEN	TEN	✓
✓	14	FOURTEEN	FOURTEEN	✓

Passed all tests! ✓

Correct

Marks for this submission: 1.00/1.00.
